## SOFTWARE ENGINEER

As a 4th-year Software and Intelligent Systems student, I am a motivated Full-Stack Developer experienced in building web applications with Spring Boot and React. Passionate about Cloud Engineering and DevOps, I focus on designing scalable, efficient, and automated systems. I am particularly interested in Cloud Native Applications, including containerization, serverless computing, and microservices architecture. Currently, I am seeking an end-of-year internship to apply my technical skills to impactful solutions

---

## EDUCATION

<b>Faculty of science and technologies Tangier</b>	<b>2023 -present</b>
Software Enginner : Engineering Program In Software and Intelligent Systems (LSI)	
<b>Faculty of science and Technologies AL Hoceima</b>	<b>2021 -2023</b>
DEUST : Diploma of University Studies In Science and Technology (MIP)	

---

## PROFESSIONAL EXPERIENCE

<b>SportPress , Tangier</b>	<b>December 2024 - February 2025</b>
<b>Web Development Intern (laravel,react)</b>	
<b>Accomplished</b> enhanced UI and backend performance for SportPress <b>by implementing</b> new features and error fixes, <b>which led to</b> improved user experience and on-time project delivery.	
<b>Ateag , Agadir</b>	<b>Juin 2024 - August 2024</b>
<b>End of Year's Intership (spring boot, react , mysql)</b>	
<b>Accomplished</b> a full-stack stock management system <b>by implementing</b> Spring Boot and React, <b>which led to</b> real-time stock tracking and a user-friendly interface.	

---

## ACADEMIC PROJECTS

### FinTech Application Deployment and Monitoring (AWS , Terraform , K8S , Prometheus)

**Accomplished** a scalable banking platform with AI-driven loan services **by implementing** Terraform, Kubernetes, and Grafana-CloudWatch, **which led to** streamlined risk assessment, automated infrastructure, and robust system performance

### Oracle Database Management Application ( spring boot , React, Oracle )

**Accomplished** a secure and optimized full-stack application **by implementing** Spring Boot, React, and advanced Oracle features (TDE, VPD, RMAN, Query Tuning, DataGuard), **which led to** robust user management, enhanced data security, and efficient database performance.

### Fitness Progress Tracking Application (Spring Boot, React(Next.js) ,Mysql)

**Accomplished** a fitness application **by implementing** Spring Boot, Next.js, and MySQL, **which led to** enhanced user convenience through workout tracking, progress reporting, and a responsive interface for seamless user experience.

---

## TECHNICAL SKILLS

- **Backend Development:** Java (Spring Boot), Python
- **Frontend Development:** React, Next.js, JavaScript, Tailwind CSS
- **Database Management:** Oracle, MySQL, PostgreSQL
- **Design Patterns:** Proficient with common patterns (Singleton, Decorator, Strategy, MVC)
- **Testing & API Tools:** Swagger, Postman, JUnit, SonarQube
- **Cloud & DevOps:** AWS , OCI , Kubernetes (k8s), Docker, Jenkins, CI/CD pipelines , scripting (bash)
- **Soft Skills:** Team collaboration, Agile practices, effective communication, analytical problem-solving
- **Languages:** French (B2), English (B2), Arabic (Native)
